Hospital Modules and Workflows

Arogya Life Systems Lanka Private Limited is at the forefront when it comes to developing Smart Hospital solutions in Sri Lanka. Arogya is in business with the intention of converting Digital behavior to Smart at hospitals. One such step forward particularly to counter the present pandemic situation where people are safe at home and still the needs remain the same is Heartbeat Homecare Pro. It is a Mobile Web App which need not be downloaded. It is simply a URL of a Website.
